PROFESSIONAL SUMMARY

Software Developer transitioning from 20+ years in high-stakes operations and logistics leadership. Combines extensive experience in process optimization, compliance systems, and team management with modern technical skills in Python, full-stack development, and automation. Proven ability to deliver reliable solutions, troubleshoot complex systems, and communicate effectively with diverse stakeholders. Seeking to contribute strong problem-solving skills and rapid learning ability to a collaborative engineering team.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML/CSS
Frameworks/Libraries: Django, Flask, Pandas, NumPy, Selenium, PyTest, pygame
Tools: Git, REST APIs, Agile/Scrum, Excel.
Bilingual: English/French

WORK EXPERIENCE

Freelance Software Developer | Self-Employed | Dec 2024 – Present
- Delivered 10+ custom Python solutions (web apps, automation tools) for clients, maintaining 100% satisfaction
- Mentored 3 beginners in Python programming and development best practices

Python Developer | Emotek Logiciels (Remote) | Aug 2022 – Nov 2024
- Developed and maintained Python web applications and REST APIs in Agile team environment
- Reduced manual testing by 30% via Selenium/PyTest automation scripts
- Enhanced reliability by writing unit/integration tests covering 85% of critical functionality

CEO & Founder | KAMASSIBO-US LLC | Aug 2019 – Dec 2023
- Led international logistics startup; increased shipping volume by 200% in 2 years
- Digitized operations using Excel/custom tools, improving inventory accuracy by 45%

PROJECTS
- **PDF Ebook Reader**: Python/Tkinter desktop app with PyPDF2 for navigation & bookmarking
- **Weather Dashboard**: Flask web app with Pandas for CSV/JSON processing & report generation
- **Password Security Tool**: API-integrated application for password validation
- **Breakout Game**: Improved legacy game using Python/PyGame with JSON configuration

EDUCATION
B.S., Software Development & Security
University of Maryland Global Campus | Dec 2024
- Relevant Coursework: Object-Oriented Programming, Data Structures, Web Development, Database Systems, Software Testing

M.D., Medical Sciences
University of Cocody, Côte d'Ivoire | Jul 1996

CERTIFICATIONS
- Python - UDEMY
- SQL, Power BI, R (Intermediate) - DataCamp
- Introduction to Data Analysis - Coursera IBM
- Technical Support Fundamentals - Google
